

# MODEL 60

## Industrial Feed-Through Sealer

*This Pneumatic Feed-Through Accu-Sealer is our workhorse model that is custom crafted from lightweight aluminum and designed for oversized, heavy-duty applications.*

### MODEL 60

#### SPECIAL PNEUMATIC FEED THROUGH ACCU-SEALER

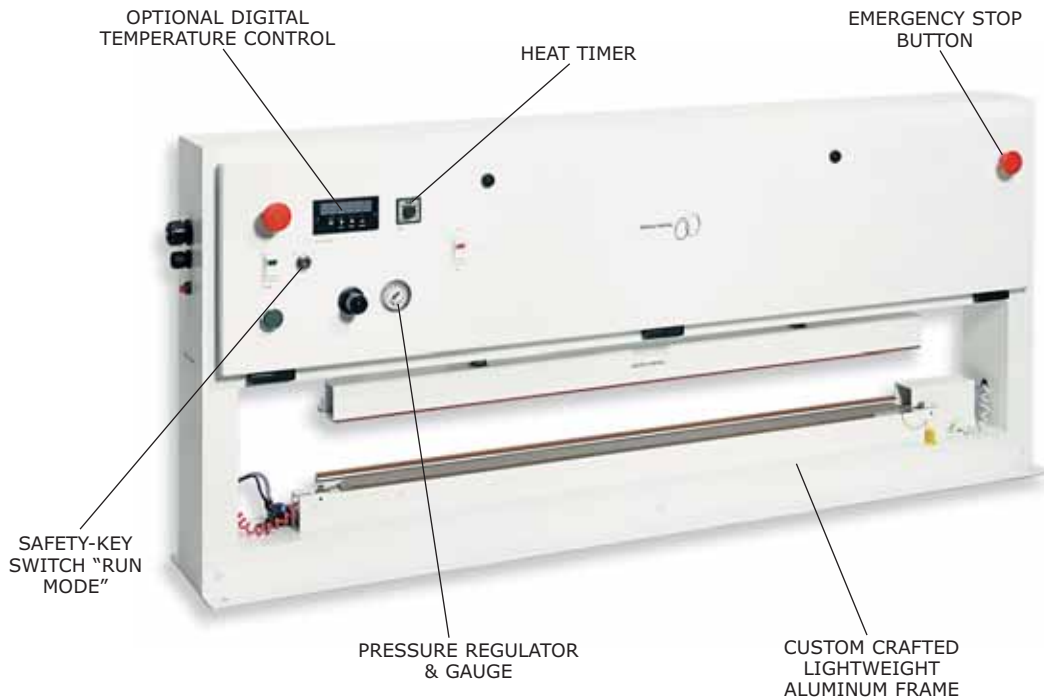

We have completely redesigned this unit structurally and electronically. This Pneumatic Feed-Through Accu-Sealer is our workhorse model that is custom crafted from lightweight aluminum and designed for oversized and heavy-duty applications.

The welded rectangular frame provides the structural stability necessary to make seals up to 10 Feet long and 1" wide. Films can be fed from the front or the back of the machine and passed between the sealing jaws for uninterrupted flow.

This rugged and versatile machine allows for easy two-handed operation, with simple easy to read dials and several built-in features to provide optimum operator safety. This unit can also be adapted to an automatic conveyor system if needed.

IMPULSE/PNEUMATIC SEALERS

MODEL 60
