It's All American

Outstanding Value

Unmatched product quality

& loaded with standard features

We asked our customers what they wanted and the result is the **New smartVAC ACCU-SEAL's new 675 series of Impulse Heat Vacuum sealers built to meet your needs.** We tried to think of everything. Build it tough to handle any production environment and have user friendly controls that operators can learn in minutes. Open ended seal bars and retractable vacuum nozzle for production speed and load it with standard features and include an emergency stop switch. Beat the competition with Quality, Pricing and Delivery time.

This New ECONOMICAL "smartVAC" vacuum sealer is designed and built in the USA using the highest quality components and materials to provide you with unmatched product quality and trouble free performance at a great price.

We are so proud of this new machine we back it with a 2 year limited warranty on parts and labor.

We want to offer you the best possible pricing and delivery available so we have designed three models in this 675 smartVAC Series. Designed so you can easily select the machine with the features you need eliminating costly custom add-on's and lengthy delivery time.

This smartVACuum sealer is designed for use on a Table top or a stand and is available with a product support tray.
